WORK EXPERIENCE

ADP | SENIOR MEMBER TECHNICAL

Hyderabad, IN | Jul 2022 – Present

- Driving development of an enterprise-scale document processing system using Java, Python and multiple ML models, achieving **95% accuracy in automated data extraction** from diverse unstructured pdf documents.
- Engineered a scalable architecture that integrates Google Cloud Document AI, MongoDB, and custom PDF processing libraries, reducing manual document processing time by 90%. Implemented Human-in-the-Loop validation workflow for low-confidence predictions, **improving overall accuracy from 95% to 100%**.
- Architected and implemented an automated enrollment termination system **processing hundreds of monthly transactions**, mitigating manual processing effort in age-based terminations.
- Led a team of 3 engineers in Critical Illness Plan enhancement project, delivering new features with **80% test coverage**.
- Engineered multiple eligibility group support within single plans, reducing plan maintenance overhead and **decreasing storage requirements**.
- Optimized RESTful APIs through lazy loading and chunk processing, **reducing response time by 40%** and implemented server side rendering of grids to improve client performance.

TECH VARIABLE | SOFTWARE ENGINEER INTERN

Assam, IN | Jan 2022 - Jun 2022

- Developed Quii mobile app using React Native and **scalable backend infrastructure** using NodeJS and Firebase.
- Created a CLI automation tool **reducing development setup time by 10%** across all React/React Native projects.

PROJECTS

COMPANY COLLABORATION FORM

Spring Boot, Hibernate, ANGULAR, MYSQL | OCT 2022

Built internal communication application handling concurrent active users. Secured **1st/50 position** in ADP Hack-a-thon 2022. Improved data loading time by 20% using lazy loading patterns.

SPEECH EMOTION RECOGNITION

TensorFlow, Flutter, PYTHON | MAY 2022

Developed ML-powered emotion detection app achieving **60% accuracy across 7 different emotions**. Processed 200+ audio samples for training with **80% validation accuracy**.

KU SE MANAGEMENT APPLICATION

Angular, NodeJS, SQL | APR 2021 - JUN 2021

Engineered student management system **processing 4000+ student records**, reducing result generation time by 80% and improving data accuracy by 100%.

EDUCATION

Kaziranga University, Jorhat

Assam, IN | Jun 2022

B.TECH IN COMPUTER SCIENCE AND ENGINEERING | Major: Cloud Computing | CGPA: 8.27

Coursework: Cloud Architecture, Distributed Systems, Machine Learning, Data Structures & Algorithms

TECHNICAL SKILLS

ML/AI: LangChain, LangGraph, Document AI

Languages: Java, SQL, JavaScript/TypeScript

Frameworks: Spring Boot, React, Angular, Flutter

Cloud & DevOps: AWS, Docker, Kafka MongoDB, Firebase, GCP, Terraform

Tools & Technologies: Git, Splunk, Postman, Maven, Jenkins, JUnit

ADDITIONAL INFORMATION

Certifications: IBM Certified Cloud Computing and Virtualization Practitioner

Languages: English (Professional), Hindi (Native)

Leadership: Technical Lead for 5-member team, Mentored more than 30 junior developers
